

# NOVATAC™

# Classic

**Simple to use, easy to carry and perfect for everyday use**

Shown actual size

Compact size fits easily in your hand

Intelligent power supply automatically reduces light output as the battery loses power

Polycarbonate lens with anti-reflective coating for superior light output

Aerospace Grade Aluminum for rugged durability

Extended tactical button for easy operation even while wearing gloves

**High Performance, Multi-Functional LED Flashlight Ideal for Police Officers, Security Guards, Campers, or just as an Emergency Back-Up Light.**

A classic design, combining the powerful brightness, lightweight feel and rugged durability that you've come to know and appreciate in NovaTac flashlights. Comes pre-set with 3 brightness levels (0.3, 30 or 120 Lumens) giving you the control and power you need to illuminate any situation, whether on the trail, or changing a tire. The longer handle and pouch easily hooks onto your belt for easy access, while the disorienting strobe can be used to temporarily blind an intruder or signal for help. Works on 2 AA batteries, so finding replacements is a cinch, no matter where you are. A perfect light to take camping, as a companion light while on duty, or as an emergency light when the power goes out.

**Package Includes:**

- Novatac Classic
- (2) AA Batteries
- User Guide
- Pouch
